

Open Your eyes for volunteering

Call for participants
May 2020

REGIONALNE CENTRUM WOLONTARIATU W GDAŃSKU

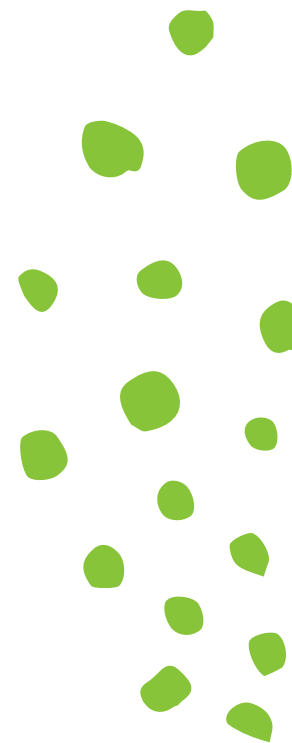

We are intermediary organization between volunteers and organizations that need volunteer support.

MISSION

We promote the idea of volunteering, implementing projects to activate local communities and aimed at changing the perception of volunteering from social assistance activities into an informed citizen attitude.

We are the only organization of this kind in Gdansk and the only organization supporting volunteering in the regional area.

Who We Are

We are one of the largest volunteer centers in Poland and the largest in Pomerania region. Working with volunteers is our daily work. We are the main organization in Gdańsk that deals with mediation between public institutions and non-governmental organizations, and volunteers. We develop many projects that are aimed at improving this cooperation, as well as reaching an increasing group of people of different ages and activating the local community.

In addition to running a volunteer agency, we also deal with projects such as action volunteering supporting various types of events in Gdańsk, school volunteering, activation of seniors or employee volunteering. We work with volunteers of all ages with different professional and social status, also with migrants.

Foreign volunteering recently became one of the key-points of our development. We received accreditation for hosting/sending/coordinating in 2018.

Our organization operates in Gdansk, the capital of the Pomeranian Voivodeship. It is one of the largest Polish cities that is located in the north, by the sea. The most numerous group are people between 25 and 39 years old.

It is a very well developed economically, socially and economically city. In Gdańsk there are many cultural institutions offering to participate in and co-create events, space for social activists and universities that make the city teeming with life and is full of young people – including foreigners. Public institutions and non-governmental organizations try to meet the needs and expectations of all age groups.

The advantage is well-developed public transport (buses, trams, trains), as well as space for rest and recreation (beach, boulevards, promenades, squares with benches, parks, outdoor gyms, forests). Gdańsk connects with Sopot and Gdynia, forming the Tri-City. All of them are well connected with each other, which allows for convenient sightseeing and using the possibilities of three urban centers at the same time.

For our new long-term project we are looking for a person who is not afraid of working with people, open to various tasks, willing to help in everyday work and ready to act. We want YOU to develop YOUR skills and together we choose the areas that best suit You.

Project starts in summer 2020 and last 12 months
