More about **Abusuan**

The hosting organisation

The ABUSUAN Intercultural Centre is a meeting place for cultures and traditions from different countries. Its many activities stem from the intention to give rise to a new society and a language capable of expressing, building and signifying the new and different forms of coexistence and interethnicity.

By promoting conferences, concerts, shows, literary and cinematographic encounters, educational and training activities, ABUSUAN aims, among its main objectives, to inform and get to know the realities of other peoples, cultures, histories and conflicts that cross them/us.

ABUSUAN is a reference point for information and training services in the field of international migration. Its aim is to promote integration, conflict resolution through cooperation and raising awareness of human rights, enhancing the products of interculturalism.

More about MOH

The coordinating organisation

MOH believes that all young people deserve to grow up in communities where quality services, opportunities and support are offered, which are necessary to get them into adulthood ready for university, work and civic engagement throughout their lives. For this reason, MOH strives to coordinate and promote different projects for young people at national, local and European level.

The intent is to **encourage local youth to meet young people from other European countries.** This encounter with the "other", experienced as an enrichment will spontaneously create active participation in civil society, facilitating also a change in the reality in which we live.
